

Table of Contents

Information Resources and Literature Searching

1. Scholarly and Reference Resources
2. Scholarly Resources - Journals
3. Indexes for journals
4. More about research articles
5. Resources - usage & context
6. Introduction to online indexes
7. Two fundamentals of online searching
8. Four principles of searching - Principle I
9. Principle - II
10. Principle - III
11. Principle IV
12. Four Principles - Exercises
13. Searching using Mesh

Mastering PubMed (Part 1)

1. Introduction
2. Exercises Four Principles
3. Understanding the results page
4. Result Display options
5. Creating NCBI Account
6. Mesh Recap
7. Understanding the Mesh results page
8. Find the right mesh terms
9. Mesh search builder
10. Searching two terms
11. Using subheadings
12. Searching a topic with mesh
13. More topic searches
14. Narrowing results - Truncation
15. Filters
16. How do filters work
17. Combining filters
18. Verifying a citation
19. Trending articles

20. Latest literature
21. Saving search strategies
22. Saving results offline
23. Emailing search results
24. Saving results online

Mastering PubMed (Part 2)

1. Filters - Advanced
2. Custom filters
3. Dashboard / My NCBI
4. Customizing preferences
5. More with saved searches
6. More with collections
7. Journals in NCBI databases
8. Searching by Journal title
9. Searching by Subject
10. Filters for journals
11. Advanced search page elements
12. Advanced search page - simple topics
13. History and search details
14. Planning search steps
15. Carrying out the search
16. Downloading & documenting the search strategy
17. Downloading - limitations
18. Misc - Batch citation macther
19. Misc - Clinical queries

Reference Management with Mendeley

1. Introduction
2. Installing Mendeley
3. Mendeley Web and Desktop - Overview
4. Creating folders
5. Populating Mendeley - Adding Manually
6. Adding PDFs
7. Using the web importer
8. Importing large results from PubMed

9. Importing large results from Cochrane Library
10. Adding Tags to result records
11. Browsing - using filters
12. Searching the library
13. About duplicates in Mendeley
14. Check for duplicates feature
15. Actions for managing duplicates
16. Adding citations and references
17. Editing citations
18. Changing styles
19. Exporting your paper
20. Misc -
21. Elements in my library
22. Groups
23. Recovering deleted items
24. PDFs and your mendeley space
25. Finding related literature
26. Watched folders
27. Export options
28. Copying citations
29. Library as citations and tables
30. Citation styles
31. More fields for data entry
32. Organizing pdfs and renaming them
33. The Help area
